### AFFAIRS OF THE RAILWAYS.

Commissions Must Not Make Too Low Rates. PENSACOLA, Fla., May 3 .- The Supreme Court of Florida has rendered a decision of vital importance to the public and to railroad corporations. The Board of Railroad Commissioners, created by the Legislature of Florida in 1887, fixed the rates for the Pensacola & Atlantic Railroad Company, which the company asserted were low to enable it to earn enough revenue to pay its operating expenses, and refused to adopt the rate fixed by the commission. The State of Florida, at the instance of the commission, Florida, at the instance of the commission, brought suit against the railroad to recover the penalties provided by statute, and obtained judgments in the lower court for several thousand dollars. The railroad appealed, and the Supreme Court now reverses the judgment of the lower court, holding that a reduction by the Legislature or commission of the rates of a railroad to a point too low to permit it to earn operating expenses is a to permit it to earn operating expenses is a deprivation of property without due process of law, and without just compensation, and is confiscation, and in conflict with the is confiscation, and in conflict with the State and federal Constitutions. This is the L., N. A. & C. road comes from changthe first decision of the kind by a court of ling the running time of certain trains. last resort.

Personal, Local and State Notes. C. W. Fairbanks, general solicitor of the Ohio, Indiana & Western road, is expected home from New York city to-day. The Chicago & West Michigan people propose to make changes in the methods of running their trains which will largely in-

crease their Chicago business. H. T. Peyton, for thirteen years master mechanic of the Missouri Pacific road at

Hannibal, has resigned and is succeeded by John Campbell, of Parsons, Kan. The Wabash is building a fine new station at Attica, Ind. The building is ninety-five feet long by forty feet wide, and conveniently divided for the business at that

General Manager Bradbury, of the Lake Erie & Western road, left for New York last night, where he goes for a consultation with President Brice and other friends of the property.

The increasing inquiry for empty cars west of here indicates an early improvement in freight traffic. The fact is that there is still an immense quantity of grain to come on the market. The Mobile & Birmingham road, 163 miles

in length, has been added to the system of roads which B. W. Wren, general passenger agent of the East Tennessee. Virginia & Georgia road must look after. The directors of the Chicago & Eastern Illinois Railroad Company have declared a quarterly dividend of 1 1-2 per cent. on the preferred stock, payable June 1. The books

close May 11, and reopen June 10. June 1 the Cincinnati, Wabash & Michigan will commence running their own sleeping-coaches over their line, and will charge such rates as will be considered

reasonable with the traveling public. F. B. Pope, Western passenger agent of the Chesapeake & Ohio road, has removed his headquarters to St. Lonis. He will work up business for the East over the I. & St. L., the C., I., St. L. & C. and the C. & O.

President Mackey and his surveying corps are making a trip in private conveyances, over the proposed line of the Evansville & Richmond road, from Elnora to Richmond. The party will reach Richmond some time

Charles Miller, brother of John F. Miller, general superintendent of the Southwestern system of the Pennsylvania lines, now a resident of Colorado, is in the East visiting friends. He was formerly a conductor on the Panhandle lines.

A number of the general managers of the Western lines and general passenger agents will leave to-morrow evening for Washing-ton, D. C., in answer to the summons of the interstate commission to talk over the vexed subject of commissions.

The Lake Erie & Western road earned in the fourth week of March \$55,252, an in-crease over the earnings of the correspond-ing week, 1888, of \$8,879. The earnings of the road for the month of April were \$184,-626; increase over earnings of corresponding month, 1888, \$36,760.

H. R. Dering, assistant general passenger agent of the Pennsylvania lines, left for the East last night, where he goes to bury a sister. This is the third time in the last thirty days that he has been called East to bury a member of the family, his father being one of the number.

General Bassenger Agent Beckley, of the Cincinnati. Wabash & Michigan road, is in the city. He states that with the taking effect of their spring time-table several changes will be made which will better ac-commodate the Indianapolis travel, both outgoing and incoming.

E. D. Steen, agent of the Ohio, Indiana & Western, at Danville, Ill., was in the city yesterday, having just returned from Oklahoma, where he located a homestead and erected a small frame house thereon, in which the representative of the Kansas City Times at Guthrie resides.

The first three months of this year the Pennsylvania lines west of Pittsburg, which fell \$150,965 below their fixed charges in 1888, have wiped out more than half this deficit and are only \$76,626 behind this year. This gain was more than made up in March. which showed an improvement of \$132,631.

Another advance in rate on live stock is likely to be effected by the adoption of a recommendation of the freight committee of the Central Traffic Association. Through a change in classification it is proposed to put horses in the third class, hogs and sheep in the fourth class and cattle in the

The Indianapolis, Decatur & Western Railroad Company is still doing a large amount of work in the rebuilding of the cars of the Woodruff Sleeping-car Company at their shops in West Indianapolis. One of the surprises is that although the Pullman Company own the cars they are relet-tering them "Woodruff cars."

The hospital system on the Wabash road has become very popular with the em-ployes, who, it will be remembered, in the days of A. A. Talmage, the founder of the system on the Missouri Pacific road and the Wabash, bitterly opposed it. There are now eight important systems of roads which have established hospitals to care for their sick and injured employes.

Articles of consolidation filed with the Secretary of State of Illinois, on Thursday, give evidence that the three large steel-works of that State have perfected their consolidation. One of the head officials says that this consolidation does not mean a reduction in the output of the three mills, or a reduction in the forces of either. It is simply done to protect them against

The employes' insurance system will go into effect on the Pennsylvania lines west of Pittsburg on July 1, and one of the officials expresses the opinion that at least 10,000 men will join at once. No physical examination will be required, and the com-pany will guarantee all the benefits. The details were completed at the meeting of the superintendents of the several divisions in Pittsburg in the early part of this

The railroad officials who accompanied Baron Erlanger on his trips over several Southern and Western roads, are of opinion that he was so well pleased with the condition of railroad properties in this country that he will return to France and strengthen the faith of European capitalists regard-ing the American roads as investments. His chief fault-finding was in the large per cent. of earnings required to operate the American roads.

On the 16th ult., the Interstate-commerce Commission issued a circular letter to about twenty-seven railroad companies, ordering them to appear before the commission to answer, and set forth the persons, and classes of persons, if any, to whom each of them have issued free passes, or free transportation, to persons other than its own officers or employes, and to efficers and employes of other companies. Nearly all the roads responded, yesterday, by giving the information desired.

The statement of the Central Traffic Association for the last month shows that the C., St. L. & P. carried 11 per cent. of the ural coloring matter, and certain mineral phospassenger business between Indianapolis | phates. and Chicago; the Louisville, New Albany & Chicago, 43 per cent, and the Cincinnati, Indianapolis, St. Louis & Chicago, 46 per cent. Of the passenger business carried be-tween Indianapolis and Cincinnati, the Cincinnati, Hamilton & Dayton carried 26.3 per cent., and the Cincinnati, Indianapolis, St. Louis & Chicago 73.7 per cent.

The Central Traffic Association has authorized reduced rates for persons attending the following meetings: American Association of Physic-Medical Physicians and Surgeons, Indianapolis, May 21 to 23;

Vicksburg Veterans, Indianapolis, May 22 to 24; Collegiate Prohibition Oratorical Contest, Indianapolis, May 29; Daughters of Rebekah, I. O. O. F., Indianapolis, May 21; I. O. O. F., Grand Lodge of Indiana, Indianapolis, May 22; F. and A. Masons, Grand Lodge of Indiana, Indianapolis, May 28 and 29

The freight receipts of the Indianapolis station of the Vandalia this year show an increase of \$40,930 over those of the correincrease of \$40,930 over those of the corresponding four months of 1888, in months as follows: January, \$16,120; February, \$13,-895; March, \$11,100; April, \$9,815. This increase is the more striking from the fact that owing to the introduction of natural gas and the mildness of the winter, their block-coal traffic to this city fell off the first four months of 1889 fully 75 per cent., as compared with the shipments in the corresponding period of 1888.

With the taking effect of the spring time-table the Michigan Central will make several radical changes in running time of their trains, leaving Chicago at different hours than do their competitors. Like the Louis-ville, New Albany & Chicago, the manage-ment of the Michigan Central have come to the conclusion that it is time for some body to break the monotony of all trains leaving a terminal at the same hour. The hand-

There seems to be but little question that the Louisville, New Albany & Chicago road intends to build a road south from Indianapolis, to strike their main line at Mitchell or some other point. The proposed line would be built on the survey of the Indianapolis & Evansville Straight-line, made twenty years ago, which followed the canal bank south from the city to Waverly and passed through the fine stone quarries in the southern part of the State. It is stated that on one survey the distance from Indianapolis to New Albany would be but nine miles greater than the Jeffersonville, Madison & Indianapolis road; but, doubtless, to touch certain points which are now without railroad facilities to reach the capital readily, the line would be somewhat changed.

# CHRISTIAN WORKERS.

Evidences of the Success Attending the Sunday-School Normal Class.

The movement for the training of Sundayschool teachers, inaugurated by Dr. Gilbert, of this city, in November last, is steadily gaining in public favor. Ministers' meetings in various cities, where he has established normal classes, have passed approving resolutions, and prominent citizens who have studied the system have written letters of congratulation. L. H. Jones, superintendent of public schools, strongly indorses the system, and Dr. Martin, superintendent of public schools, Madison, unites with Professor Carnagev, principal of the high-school of the same city, in a flattering testimonial. There are nearly forty classes scattered about this and adjoining States, with an enrollment of about twenty-five hundred, and every day brings letters of inquiry or congratulation.

Affairs of the Y. M. C. A. General Secretary F. W. Douglass, of the Young Men's Christian Association, is at present in Orange, N. J., attending the nineteenth annual conference of general secretaries. From there he will go to Philadelphia to attend the twenty-eighth international convention of the Young Men's Christian Association, which convenes on the 8th, and continues until the 12th. One thousand delegates are expected. Mr. Douglass went to Providence, R. I., previous to going to Orange, and was present at the 250th anniversary of the church founded there by Roger Williams. Upon his return here, about the middle of the month, he will be given a reception by members of the association, who will gather to hear the news from the convention. State Secretary Humphrey left for Orange a week ago.
C. D. Meigs, jr., president of the State organization; Dr. James McLeod, J. C. Shaffer, P. F. Bryce and others of the active membership of the association here will represent Indianapolis in the coming con-

Young People's Alliance. The Roberts Park Young People's Methodist Alliance held an interesting meeting last night. Twelve new members were re-

ceived, making 135 in all. The following officers were elected: President-Harlan Marshall. Vice-president-Miss Laura B. Jennings, M. D.

Secretary—Miss Cora Donough. Treasurer—W. J. Sumner. Directors-Mrs. S. C. Heath, F. H. Rossiter. Miss Cora Donough read an excellent paper on "Our Active Pledge," and Miss Dora Many gave select readings. D. E. Walruth read a paper on "Life Consecration"

Religious Notes.

The Rev. E. P. Whallon, D. D., has accepted the call to the Fourth Ppesbyterian Church, and will enter upon his duties tomorrow. He will occupy the parsonage, which is in process of renovation. The outlook for the increased prosperity and usefulness of the church is good. Chancellor Sims, of Syracuse Univer-

sity, is the guest of Mr. T. P. Haughey, and will preach in Meridian-street Church to-

morrow morning.

The work of removing and refitting Central-avenue Methodist Episcopal Church having been fully completed, the reopening exercises will occur to-morrow. Rev. S. A. Keen, D. D., will preach at 10:80 A. M. and Rev. Dr. Ford at 7:30 P. M.

Rev. John Goddard, of Cincinnati, will preach to morrow morning and evening at preach to-morrow morning and evening at the New Church Chapel, 333 North Alabama street. Mr. Goddard will be the guest of Mr. and Mrs. George F. Adams.

#### Two Tough Stories. Philadelphia Inquirer.

A Scranton man was giving medicine to his colt for stomach trouble. The other day he was a little late in getting to the stable, and on arriving there was aston-ished to see the animal removing the un-corked bottle from the shelf with its teeth and swallowing the dose without assist-

Jacob Gorsuch, of North Sewickley town-ship, came back from a hickory grove the other day and told about the thousands of young grape vines he had seen hanging about the trees. There were two hundred trees literally covered with them. It was so strange a sight that Mr. Gorsuch stopped to examine. Going nearer, he discovered that each of the supposed grape vines was a long, black snake, suspended from the tree by its mouth. He left in haste.

A Natural Mistake. "Ach Himmel!" Herr Von Bulow cried: "Dot sounds familiar, I am sure." A boiler just had gone to smash; The chimney-stack fell with a crash, And ground things to eternal hash. "Ach Himmel!" cried this German, rash. "Dot's a Vagnerian oferture."

-Philadelphia Times. The American Girl and Royalty.

What American girl wants to be Queen of England! Sir Edward Sullivan, one of Victoria's subjects in good standing, is urging that nation to marry off Prince Albert Victor, eldest son of the Prince of Wales, to some likely heiress imported from the United States. There, girls, what do you say to that?

LABORATORY AND OFFICE OF J. N. HURTY, ) ANALYTICAL CHEMIST, Indianapolis, Ind., April 25, 1887.

Mesers. Mullaney & Hayes, Indianapolis: Gentlemen-In accordance with your letter of March 18, I purchased from Mr. Robert Browning, individually, a bottle of your special wine, Cote d'Or. This wine I have exhaustively and carefully analyzed, and herewith submit my re-

The wine possesses a heavy body, has a deep wine-red color and natural, rich flavor. Its specific gravity is 1.019, contains 9.8 per cent of alcohol and 10.34 per cent of solid matter. This solid matter is found naturally in the grape, and is composed principally of grape sugar. It contains, also, some vegetable albumen, a little nat-This wine, then, certainly is a pure, fermented

grape juice, and has not been "manipulated" in I wish to call your attention to a fact not generally known, namely: that pure grape juice in composition-fatty matter excepted-very closely resembles fresh milk. This explains the valuable nutritive properties and wholesomeness of grape juice. Your wine, Cote d'Or, is very rich in the usual constituents of grape juice, and contains about the right quantity of alcohol—10 per cent.—to enhance these nutritive and medicinal

properties. J. N. HURTY. For sale by all first-class druggists.

#### MAKING INVESTMENTS.

What a Chicago Syndicate Proposes to Build on One of the Best Corners in the City.

A Chicago syndicate has secured an option on the property of John Wood, on the point of Pennsylvania street and Massachusetts avenue. It has a frontage on Massachusetts avenue of 189 feet, and on Pennsylvania street of 148 feet. The price to be paid for the property is \$50,000, and the option is for sixty days. The reason assigned for asking an option for that length of time is that the syndicate wants to secure \$250,000, of which \$175,000 has already been raised. When this is done the syndicate will close the option, and begin work in the erection of a five-story building on the lot. It is proposed to have stores on the ground floor, and flats on the other

New Business Enterprises.

Indianapolis, which already leads the world in the manufacture of lounges, is soon to have another establishment of that kind, in which will also be made furniture of all kinds. The new company filed articles of incorporation with the Secretary of State yesterday. It is to be known as The United States Lounge Manufacturing Company, and has a capital stock of \$25,000. The directors are John H. Stewart, Mary R. Stewart and S. Herbert Collins. Lafayette, following after Indianapolis, is to have a belt railroad around the city. The road will be eight miles in length. The company that proposes to build the road was incorporated yesterday with a capital stock of \$50,000. The directors are James J Perrin, Henry C. Tinney, Robert W. Sample, Brown Brockenbrough, R. W. O'Ferrill, James Murdock, Chas. B. Stuart. John B. Ruger, Wm. Horn and John R. Coffroth.

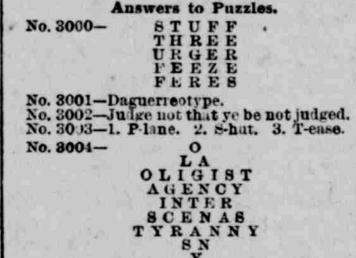

The Brightwood Building and Loan Association has been incorporated with a capital stock of \$300,000. The officers are: President, Joseph Joiner; vice-president, Chas. Pascall; secretary, W. D. Desney; treasurer, Herbert Joiner. R. Stewart and S. Herbert Collins. La-

More Open Street-Cars.

The Citizens' Street-railway Company received, yesterday, from St. Louis, twelve new open cars, and before the coming week closes it will have thirteen more ready
